Middleware, SOA Technologies for e-Commerce Applications
1st Assignment: Reason & Expectation of the Course
Lecturer: Prof. Sheau-Ling Hsieh

Student Name: Irfan Subakti (司馬伊凡)

Student ID: 9555867

Question

1. Why you take this course?
2. What is/are your expectation(s) from the course?

Answer

1. I took this course because:
 - It's a background that I need as a fundamental part of my Ph.D. research in Knowledge and Data Engineering (KDE) Lab., Dept. of Computer Science, NCTU, in the area of e-learning especially in data mining kernel part of the expert system within.
2. The things that I expect from this course are:
 - Understanding about SOA: what, when, where, why, who involve in SOA.
 - Able to implement SOA in the real world.
 - Can use SOA as the fundamental part of my Ph.D. research together with my colleagues in my lab, i.e., KDE Lab., Dept. of Computer Science, NCTU.
